PROFESSIONAL SUMMARY

Entry-level Full-Stack Developer skilled in Python, Django, React, and MySQL, with hands-on experience designing and deploying four live web applications spanning CRM, e-commerce, and blogging platforms. Published researcher (IJSRED) with a strong grasp of the full development lifecycle, from database design to live deployment. Looking to bring this practical, self-driven project experience to an entry-level developer role.

SKILLS

Languages: Python, JavaScript, HTML, CSS

Frameworks & Libraries: Django, Django REST Framework, React.js, Next.js, Bootstrap

Databases: MySQL, SQLite, Supabase, Turso

Tools & Platforms: GitHub, PythonAnywhere, Vercel, VS Code

Core Concepts: REST APIs, Responsive Web Design, Authentication & Authorization, MVC/MVT Architecture

Soft Skills: Problem Solving, Communication, Adaptability, Creativity, Team Collaboration

PROJECTS

DentalExperts — Django, Python, SQLite · suryacs.pythonanywhere.com

- Designed and built a full-stack CRM to streamline dental appointment booking for clinics.
- Implemented online scheduling, clinic information pages, and management of patient records and doctor schedules.
- Deployed live on PythonAnywhere; formed the basis of a published research paper (see Publications).

CipherApparel — React.js, Django, Python, SQLite · cipher-apparel.vercel.app

- Built a responsive fashion e-commerce platform with secure user authentication and session handling.
- Developed dynamic product listing and offers-management features backed by a Django/Python API.
- Integrated a React front end with the Django backend for a seamless, single-page-style shopping experience.

Blogcraft — React.js, Django, Python · blogcraft.pythonanywhere.com

- Engineered a full-stack blogging platform with user authentication and role-based access.
- Built post creation, editing, and management workflows for efficient content publishing.

Personal Portfolio — Next.js, Supabase · suryacs.is-a.dev

- Developed and deployed a cinematic personal portfolio site showcasing 10+ front-end and back-end technologies.
- Hosted live on Vercel with a focus on animation and responsive layout.
- Obtained via the free is-a.dev developer community, providing accessible subdomain branding for developer projects.

Spice Kitchen — React, Vite · spice-kitchen-veg-nonveg.vercel.app

- Developed a lightweight, responsive digital menu application to streamline the dining experience, featuring intuitive category browsing.
- Deployed on Vercel to ensure high availability and fast load times for end users.

Restaurant POS & Billing System — React, Node.js, Express.js, Turso · restaurant-pos-frontend-steel.vercel.app

- Built a cloud-ready Point of Sale system facilitating real-time order management, menu administration, and efficient checkout processes.
- Integrated Cloudinary for media management and Turso (LibSQL) for high-performance, scalable edge database operations.

RESEARCH PUBLICATIONS

"A Study on Web-Based Dental Appointment Booking System" — Published in IJSRED, Volume 9, Issue 1.
